OTHER RATE OPTIONS

Security Rate Option

Outdoor Protective Lighting - For customers who want security lighting from dusk to dawn where electric service is already available. Learn more at dteenergy.com/oplres.

Green Rate Options

MIGreenPower - A voluntary renewable energy program for customers who want to attribute a greater portion of their energy use to DTE's renewable energy assets. By participating in DTE's solar and wind projects, customers are accelerating clean energy development in Michigan without installing a system at their home. Learn more and sign up at migreepower.com

Net Metering -

Provides credit to customers with on-site generation and who fulfill DTE Renewable Resource requirements. This rate is no longer available to new customers.

Distributed Generation -

A rate option, available after May 9, 2019, to customers with on-site renewable generation that comply with all requirements that supplies a credit for electricity sent back to DTE's grid.

Note, existing Net Metering sites will continue in the Net Metering program for 10 years from the date upon which the site began billing on the program.
