

Jaspreet Singh

Vice President Corporate Services
DTE Energy

Jaspreet Singh is the vice president of Corporate Services for DTE Energy. He **is responsible for strategic management of the company's** procurement, supplier performance management, warehousing, fleet, facilities, and real estate organizations. In addition, he leads **implementation of environmental sustainability projects within DTE's** buildings, fleet vehicles and supply chain. He is also responsible for the **company's local and diverse supplier initiatives.**

Singh joined DTE in 2007. He most recently served as director of Supply Chain Management. Prior to that position, he progressed through various roles in the Supply Chain organization. Before joining DTE, Singh held various roles in Program Management, Supplier Cost Optimization, Finance, and Engineering in the automotive industry.

Singh has played a significant role in helping the company reduce outside expenditures through the successful negotiation of large contracts that included items like external audit services, tree trimming, construction, wire and cable, transformers, and temporary labor.

He earned a Master of Business Administration degree from Ross School of Business - **University of Michigan, Ann Arbor** and a **bachelor's degree in Mechanical Engineering** from Thapar University in Patiala, India.

Singh is passionate about supplier diversity and serves on the board of directors for Diversity and Inclusion and Global Ties Detroit, a non-profit organization that hosts international exchange programs on behalf of the U.S. Department of State and other government organizations, universities and think tanks that promote global exchange and citizen diplomacy.

DTE Energy (NYSE: DTE) is a Detroit-based diversified energy company involved in the development and management of energy-related businesses and services nationwide. Its operating units include an electric company serving 2.3 million customers in Southeast Michigan and a natural gas company serving 1.3 million customers in Michigan. The DTE portfolio also includes non-utility businesses focused on industrial energy services, renewable natural gas, and energy marketing and trading. As an environmental leader, DTE utility operations will reduce carbon dioxide and methane emissions by more than 80% by 2040 to produce cleaner energy while keeping it safe, reliable and affordable. DTE Electric and Gas aspire to achieve net zero carbon and greenhouse gas emissions by 2050. DTE is committed to serving with its energy through volunteerism, education and employment initiatives, philanthropy and economic progress. Information about DTE is available at dteenergy.com, empoweringmichigan.com, twitter.com/dte_energy and facebook.com/dteenergy.
