

## The DTE Energy Marketplace is now open!

Save \$75 on a Nest Learning Thermostat, and up to \$19 on a six-pack of LED light bulbs, simply by visiting the newly launched DTE Energy Marketplace.

Visit [dteenergy.com/marketplace](http://dteenergy.com/marketplace) to shop for – and compare – energy-saving products, and to get instant savings on your purchases.

## We'll give you 50 bucks for your old fridge!

Whether you're cleaning out your basement or garage, or you're just looking to get rid of an old, energy-guzzling fridge or freezer, our appliance recycling team is here to help. Not only will we come to your place to haul your appliance(s) away at no cost, we'll also give you a \$50 rebate for participating! Add an air conditioner or dehumidifier and we'll throw in an additional \$20.

Schedule an appointment online at [dteenergy.com/recycle](http://dteenergy.com/recycle) or by calling 866.796.0512.

## Three simple tips for keeping cool as high temps hold steady

**1. Use a ceiling fan.** Run your fan to create a cool breeze and be sure to turn it off when you leave the room – remember, fans cool people, not rooms! Raising your thermostat temperature two degrees and using your fan(s) to boost air circulation can slash your cooling costs by up to 14 percent.

**2. Install a programmable thermostat.** We recommend a setting of 78 degrees this time of year. With proper programming and use, an upgraded thermostat can save you about \$180 in energy costs annually.

**3. Purchase an ENERGY STAR® room air conditioner.** Did you know ENERGY STAR® certified room air conditioners use about 9 percent less energy than standard models? By saving you about \$70 per year, these units practically pay for themselves!

# New Detroit solar park built on 10 acres of unused land

This summer, we commissioned the O'Shea Park solar project, which is built on 10 acres of previously vacant land. With more than 7,400 solar panels, the project will generate enough clean energy to power 450 homes.

In addition to helping DTE reduce emissions and provide cleaner energy to our customers, the new park will help revitalize the west-side neighborhood it anchors. The city of Detroit is renovating the adjacent area, creating an inviting space for the community to play, walk and gather.

Learn more about the O'Shea Park project at [dteenergy.com/renew](http://dteenergy.com/renew).

## Get a FREE ecobee Smart Thermostat from DTE

Take the first step toward putting more money in your pocket this fall and winter by scheduling a no-cost Home Energy Consultation. When you do, one of our energy efficiency experts will come to your home and install a FREE ecobee Smart Thermostat, and give you a personalized recommendation for improving energy efficiency in your home.

Schedule your Home Energy Consultation today: visit [dteenergy.com/HEC](http://dteenergy.com/HEC) or call 866.796.0512.

## Back to school shopping? Take advantage of instant savings on lighting.

Energy efficient lighting will not only rack up serious savings for you – or your student – each month, it'll save you money at the register, too.

Learn more about current cash incentives at [dteenergy.com/lightingdiscounts](http://dteenergy.com/lightingdiscounts).
