

Steven B. Ambrose

Vice President and Chief Information Officer
DTE Energy

Steven B. Ambrose is vice president and chief information officer for DTE Energy. Ambrose is responsible for securing, operating, and applying the company's information technology assets toward achieving the company's strategic objectives.

Prior to his current role, Ambrose was director of Enterprise Performance Management where he was responsible for the oversight of corporate performance and served as the chief of staff to the CEO where he coordinated various corporate wide initiatives.

Ambrose joined DTE Energy in 1998 and served in a variety of progressively more responsible information technology (IT) roles including the oversight of the company's enterprise business systems, the IT operations of DTE Energy's non-utility affiliates, and the stewardship of the company's IT strategy and enterprise architecture.

Ambrose earned an MBA with high distinction from the University of Michigan, a Project Management Professional (PMP) certification, a master's certificate in management information systems from the University of Southern California, and a bachelor's degree in business administration from Bellevue College.

Ambrose serves on the board of directors of Powerley, FIRST in Michigan (FIRST Robotics), and the Michigan Science Center.

DTE Energy (NYSE: DTE) is a Detroit-based diversified energy company involved in the development and management of energy-related businesses and services nationwide. Its operating units include an electric company serving 2.2 million customers in Southeast Michigan and a natural gas company serving 1.3 million customers in Michigan. The DTE portfolio includes energy businesses focused on power and industrial projects; renewable natural gas; natural gas pipelines, gathering and storage; and energy marketing and trading. As an environmental leader, DTE utility operations will reduce carbon dioxide and methane emissions by more than 80 percent by 2040 to produce cleaner energy while keeping it safe, reliable and affordable. DTE Electric aspires to achieve [net zero](#) carbon emissions by 2050. DTE is committed to [serving with its energy](#) through volunteerism, education and employment initiatives, [philanthropy](#) and economic progress.
