

### **Camilo Serna**

Vice President, Regulatory Affairs  
DTE Energy

Camilo Serna is vice president of Regulatory Affairs for DTE Energy. In his role, Serna is responsible for developing and managing DTE Gas and DTE Electric's regulatory initiatives before the Michigan Public Service Commission (MPSC). In addition, he plays a key role in developing DTE's long-term state and federal regulatory policy and strategy as well as maintaining the Company's relationship with the MPSC. Prior to this role, Serna was DTE's vice president of Corporate Strategy where he developed strategic initiatives including the execution of DTE's annual strategic planning process.

Prior to joining DTE in August 2016, Serna was vice president for strategic planning and policy for Eversource Energy, New England's largest utility company, where he was responsible for the identification of growth opportunities, development of strategic plans and framing of key energy policy positions.

Prior to his time at Eversource, Serna was a leader in Oliver Wyman's Energy & Utilities management consulting practice, assisting utility and energy companies in Europe, Latin America and North America with a wide array of strategic and operational challenges.

Serna holds an industrial engineering degree from Universidad de Los Andes in Bogotá, Colombia, and an MBA from the Kellogg School of Management at Northwestern University.

DTE Energy (NYSE: DTE) is a Detroit-based diversified energy company involved in the development and management of energy-related businesses and services nationwide. Its operating units include an electric company serving 2.2 million customers in Southeast Michigan and a natural gas company serving 1.3 million customers in Michigan. The DTE portfolio includes energy businesses focused on power and industrial projects; renewable natural gas; natural gas pipelines, gathering and storage; and energy marketing and trading. As an environmental leader, DTE utility operations will reduce carbon dioxide and methane emissions by more than 80 percent by 2040 to produce cleaner energy while keeping it safe, reliable and affordable. DTE Electric aspires to achieve [net zero](#) carbon emissions by 2050. DTE is committed to [serving with its energy](#) through volunteerism, education and employment initiatives, [philanthropy](#) and economic progress.
