

# Electric Pricing For Your Home

We offer many pricing options  
to best suit your lifestyle

**DTE**

The DTE logo is positioned in the bottom right corner of the page. It consists of the letters 'DTE' in a bold, blue, sans-serif font. Behind the logo is a stylized sunburst graphic composed of numerous small blue dots and thin blue lines radiating outwards, creating a bright and energetic feel.

## 1 Choose your Base Electric Rate

While most customers choose our standard base rate, DTE offers other options so you can find the best fit for your budget, lifestyle and energy needs.

### Base Rates

- **Residential Electric Service Rate\***

The current residential standard rate that the majority of DTE Electric customers are on. This rate is only available until March, 2023.

- **Time of Day 3 p.m. – 7 p.m.\***

The new standard residential rate for DTE Electric customers starting March, 2023. Take advantage of lower rates before 3 p.m. and after 7 p.m. Monday through Friday.

- **Time of Day 11 a.m. – 7 p.m.**

This rate provides an extended window of potential savings for customers who can manage energy use from 11 a.m. - 7 p.m.

- **Dynamic Peak Pricing**

Save by shifting your electricity use to nights and weekends when prices are the lowest.

*\*Senior Citizen Bill Credit: If you are 65 or older, are designated as head of household, and on our Standard Base Rate, you are eligible for a \$4.25 monthly credit.*

## 2 Look at Specialty Rates

No two households are the same, so DTE has options to give you a special rate depending on your needs. Specific equipment or a separate meter is required to utilize specialty rates.

# Specialty Rates

- **Electric Vehicle Rate**

Charge your electric vehicle overnight (between 11 p.m. and 9 a.m.) and save. [dteenergy.com/ev](http://dteenergy.com/ev)

- **Geothermal Rate**

When your equipment operates between 7 p.m. and 11 a.m., you save.

- **CoolCurrents® Interruptible Space Conditioning Rate**

Save on cooling when you allow DTE to briefly cycle on and off your air conditioning unit (includes air source heat pumps) when demand is high.

- **Interruptible Water Heating Service Rate**

Get a lower rate when you allow DTE to briefly cycle on and off the heating elements of your water heater when demand is high.

- **Outdoor Protective Lighting**

Invest in protective security lighting using existing DTE utility poles on your property at a more affordable rate. [dteenergy.com/ProtectiveLighting](http://dteenergy.com/ProtectiveLighting)

### 3 Consider These Add-Ons

From supporting renewable energy to getting rewarded for your energy investments, DTE offers several ways to make a difference on your bill.

## Add-Ons

- **MIGreenPower**

Participate in DTE's solar and wind parks and help minimize your impact on the environment.

[dteenergy.com/MIGreenPower](https://dteenergy.com/MIGreenPower)

- **Distributed Generation**

Get credit for solar or wind energy you generate and send back to the grid. [dteenergy.com/DG](https://dteenergy.com/DG)

- **Smart Savers**

Get rewarded for enrolling your existing smart thermostat to be adjusted during high demand events in the summer. [dteenergy.com/smartsavers](https://dteenergy.com/smartsavers)

- **SmartCurrents™**

Get a free smart thermostat and start saving on your bill during times of high energy demand year-round. [dteenergy.com/smartcurrents](https://dteenergy.com/smartcurrents)

### Ready to pick a new rate or special add on?

# Factors that impact your bill

**Did you know?** There are many factors that drive energy use in your home. Here are the four key factors that will determine how high or low your energy bill may be.

## Usage

Did you remember to adjust your thermostat setting? The primary factor that impacts your monthly energy bill is usage – how much you use and whether you use energy during on-peak or off-peak hours.

## Weather

A couple of days of extreme weather – hot or cold – can make heating and cooling equipment run longer, increasing your energy use.

## Household changes

More people in the house often means appliances like your water heater and stove are used more or you may adjustment the thermostat to make more people comfortable.

## Days billed

Fewer days in the billing cycle typically results in a lower energy bill, compared to a billing cycle with more days.

So, next time your bill comes, take a few minutes to consider the impact these factors may be having on your energy bill.

# We're committed to keeping prices affordable, while investing to improve reliability

We're integrating new smart technology to provide more efficient, safe and reliable energy. We're investing nearly \$1 billion a year in infrastructure upgrades across southeast Michigan to increase reliability for our customers. Work we're doing includes:

- Trimming overgrown trees along power lines
- Replacing and upgrading utility poles
- Adding sensors and other best-in class technology to make the grid smarter
- Upgrading existing substations and building new ones to support economic growth

And, DTE recently committed to reducing carbon emissions by at least 90 percent by 2040 and net zero by 2050. Read about DTE's commitment at **[dtecleanenergy.com](https://dtecleanenergy.com)**
