

**Renee Tomina**

Vice President, Gas Operations
DTE Gas

Renee Tomina serves as vice president, Gas Operations for DTE Gas, DTE Energy's natural gas utility which provides service to 1.2 million homes and businesses in Michigan.

She is responsible for managing utility gas operations, including construction, distribution and planning of DTE's natural gas pipeline system within applicable federal, state and local regulations. In her role, Renee leads the improvement of the operational systems, processes and policies to ensure a high level of system integrity, safety and performance.

Tomina has been with DTE Energy since 2010 and has served in a number of leadership positions of increasing responsibility in Continuous Improvement, Customer Service, and Electric and Gas Operations. Prior to joining DTE, she worked as a manufacturing lead in the automotive industry.

She holds a Bachelor of Science degree in electrical engineering from Lawrence Technological University and a Master of Science degree in systems engineering from Oakland University.

Tomina is an active member in the American Gas Association, supporting the industry, and is active in efforts to improve the community.

She, her husband and their three children enjoy traveling and are members of the autism family.

DTE Energy (NYSE:DTE) is a Detroit-based diversified energy company involved in the development and management of energy-related businesses and services nationwide. DTE Energy's operating units include an electric utility serving 2.2 million customers in Southeastern Michigan and a natural gas utility serving 1.3 million customers in Michigan. The DTE Energy portfolio also includes non-utility energy businesses focused on power and industrial projects, renewable resources, natural gas pipelines, gathering and storage, and energy marketing and trading. As one of Michigan's leading corporate citizens, DTE Energy is a force for growth and prosperity in the 450 Michigan communities it serves in a variety of ways, including philanthropy, volunteerism and economic progress.
