END USER STORAGE TRANSFER REQUEST

DTE Gas Company
Attention: Gas Nominations Department
One Energy Plaza
Detroit, MI 48226

___________________________________ ("Broker"), as agent for the End Use Customer(s) ("Customer") listed below, hereby requests a storage transfer of _______________ MMBtu in the month of _______________, 20_____. If Broker is not the registered agent for Customer listed below, a letter of authorization from the Customer must be attached. This request must be received by DTE Gas Company ("DTE Gas") via mail, email, or facsimile ten (10) business days prior to the first day of the month that this transfer is to take place. This transfer is in accordance with DTE Gas’ Tariff. Gas transferred to the transferee Customer’s load balancing storage account will be considered as delivered to the Transferee Customer’s Receipt Point under its GTA. The daily nomination quantity entered by DTE Gas will equal the total of the storage transfer divided by the number of days in the month. The nomination for the last day of the month will reflect any adjustment due to rounding. For example, if the total storage adjustment was 10,000 MMBtu and was applied to the month of January, the daily nomination quantity for January 1-30 would equal 322, and the nomination for January 31 would equal 340 MMBtu. Such transfer will be subject to Gas In Kind (GIK), the total MDQ and to any load balancing account imbalance penalties. Customer and/or Customer’s Agent acknowledges and agrees that any gas transportation account imbalance penalties resulting from the debit or credit of this transfer in the month requested will be the sole responsibility of the Customer.

In addition to mail and facsimile, DTE Gas and Broker have agreed to process End User Storage Transfer Requests by electronic means, including email. Broker, by inserting his/her name and sending the completed form to MichCon hereby satisfies any writing and/or acceptance requirements for a binding transaction and agrees with terms of this Request.

2. For those parties who wish to e-mail their Storage Transfer Request, DTE Energy Gas will accept an electronic signature. Broker must insert his/her name in the signature section and forward the e-mail to the above referenced parties or Broker may send a PDF signed by all pertinent parties.

3. To be processed in a timely fashion, requests must be received by the Gas Nominations Department ten (10) business days prior to the month in which the transfer is to occur. The Gas Nominations Department will send an email acknowledging receipt of the Request regardless of whether the Request was sent via mail, fax or email.

4. Transfers must be made on a prospective basis only. Retroactive transfers are not permitted.

5. The form must be completed and signed by the both the ‘from’ and ‘to’ parties or their authorized agents.

6. Transfers must be from one EUT account to another EUT account. If gas is to be transferred from one EUT account to multiple EUT accounts, a separate form for each transfer must be completed and submitted.

7. Storage transfers are performed at no charge.

8. By submitting the Request, Customer and/or Customer’s Agent acknowledges and agrees that any gas transportation account imbalance penalties resulting from the debit or credit of this transfer in the month requested will be the sole responsibility of the Customer.

9. Customer acknowledges and agrees that DTE Gas will enter nomination transactions to the Transferee Customer during the course of the month in which the transfer applies. The daily nomination quantity entered by DTE Gas will equal the total of the storage transfer divided by the number of days in the month. The nomination for the last day of the month will reflect any adjustment due to rounding. For example, if the total storage adjustment was 10,000 MMBtu and was applied to the month of January, the daily nomination quantity for January 1-30 would equal 322, and the nomination for January 31 would equal 340 MMBtu. Storage transfer nomination quantities plus any other transportation nominations for the applicable account must not exceed the current MDQ.
