

Keith Polson

Vice President
Nuclear Generation, DTE Electric

Keith Polson is vice president of nuclear generation for DTE Energy (NYSE: DTE), a Detroit-based diversified energy company involved in the development and management of energy-related businesses and services nationwide. Its operating units include an electric utility serving 2.2 million customers in Southeastern Michigan and a natural gas utility serving 1.3 million customers in Michigan. The DTE Energy portfolio includes non-utility energy businesses focused on power and industrial projects, natural gas pipelines, gathering and storage, and energy marketing and trading. As one of Michigan's leading corporate citizens, DTE Energy is a force for growth and prosperity in the 450 Michigan communities it serves in a variety of ways, including philanthropy, volunteerism and economic progress.

Polson is responsible for overall plant safety and reliability of the Fermi 2 Nuclear Power Plant, an 1,170-megawatt boiling water reactor located in Newport, Michigan. The facility employs about 850 workers and produces approximately 15 percent of the power generated by DTE Energy.

Before joining DTE Energy, Polson served as site vice president for the Browns Ferry nuclear plant for the Tennessee Valley Authority, and has worked in the nuclear industry for nearly 30 years. He is a graduate of Purdue University with a Bachelor of Science in Electrical Engineering.
